Logistics

A MEMBER OF THE KRONES GROUP

CUSTOMER INFORMATION

FruitMasters is the largest fruit cooperative in the Netherlands, supplying top-quality hard and soft fruit directly from the source to customers at home and abroad through a network of over 400 dedicated growers.

The company **oversees the entire journey of fruit from grower to consumer** – including sorting, packing, branding, and shelf presentation. By continuously investing in new technologies, developing exclusive (concept) varieties that meet consumer taste preferences.

FruitMasters grow and package as sustainably as possible, ensuring that everyone can continue to enjoy delicious and healthy fruit – now and in the future.

PURPOSE

- > In Geldermalsen, 35,000 square meters of new facilities have been built, housing dedicated packing stations for apples, pears, and soft fruit, spread over two floors.
- > At the heart of the Smart Fruit Hub is a fully automated high-bay warehouse, standing 23 meters tall, with capacity for over ten thousand bins of sorted fruit.
- > Internal transport is almost fully automated using Automated Guided Vehicles (AGVs) and Autonomous Mobile Robots (AMRs), contributing to an efficient and safe working environment.
- > The packing process is also partially automated with packing robots that ensure consistent product quality.
