

The image displays three overlapping screenshots of the spacefill 3PL customer portal interface.

Top-left screenshot: Shows the main dashboard under the 'Analyse' section. It includes a sidebar with 'spacefill' and a list of warehouses (Ziegler - Combs-la-Ville, Gamba & Rota - Lyon, Geodia - Saint-Ouen). The main content area features:

- Alertes:** A red warning icon with '15 references', 'Stock bas 4 references', and 'En rupture 11 references'.
- Réceptions - Taux de service:** A bar chart showing 'Taux de service moyen sur les réceptions sur la période'.
- Évolution du stock PALETTE:** A bar chart showing stock levels from JAN to JUL with a 'Maximum capacity 100' and '85% maximum capacity' indicator.
- Commandes avec anomalies:** A line chart showing order anomalies.
- Nouveau transporteur:** A selection window titled 'Nouveau transporteur' with a search bar and a grid of carrier logos including Chronopost, DACHSER, DHL, FedEx, Geodia, GLS, Kuehne+Nagel, La Poste, Mondial Relay, Prévoté, Relais Colis, Transport Lenox Group, and Y&N.

Bottom-right screenshot: Shows a workflow diagram with nodes:

- Receptionné:** A light green node.
- Sortie:** A light blue node.
- Incident:** A yellow node.
- Entrée:** A light blue node.

 User avatars and carrier logos (GLS, DHL) are associated with these nodes.

Personalize shipper experience,
Increase your revenue.**

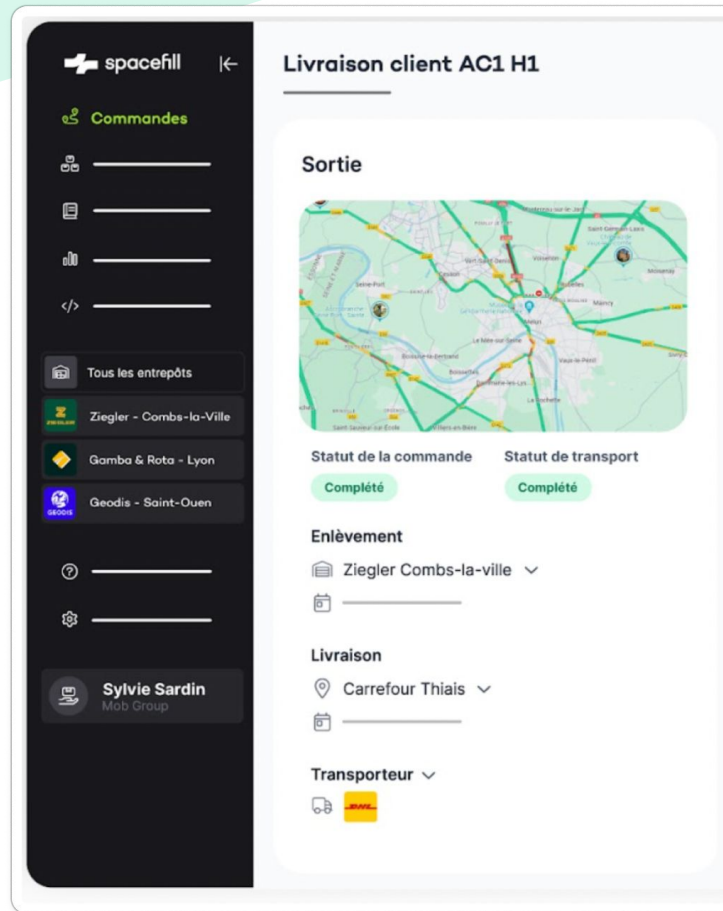

Connected to your WMS & TMS

Collaborate with all your customers ~~on spreadsheets~~ online.

 Inventory & orders customer portal.
 Connection to all ecommerce sites.
 KPIs in real time.

Directly connected to your WMS.

The screenshot displays the Spacefill mobile application interface. On the left is a dark sidebar with the Spacefill logo and a back arrow at the top. Below the logo are several menu items: 'Commandes' (Orders), 'Tous les entrepôts' (All warehouses), and a list of warehouses including 'Ziegler - Combs-la-Ville', 'Gamba & Rota - Lyon', and 'Geodie - Saint-Ouen'. At the bottom of the sidebar is a user profile for 'Sylvie Sardin' from 'Mob Group'. The main content area on the right is titled 'Livraison client AC1 H1'. It features a map under the heading 'Sortie' (Departure) showing a route. Below the map, there are two status indicators: 'Statut de la commande' (Order status) and 'Statut de transport' (Transport status), both marked as 'Complété' (Completed). Further down, the 'Enlèvement' (Pickup) section shows 'Ziegler Combs-la-ville' as the location. The 'Livraison' (Delivery) section shows 'Carrefour Thiais' as the destination. At the bottom, the 'Transporteur' (Carrier) section shows 'ARAME' as the selected carrier.

Current collaboration modes are outdated and limit your activity.

Lack of real-time visibility on inventory independently.

No unified order traceability.

Communication and litigation management by email & inefficient.

Inability to connect ones IT system to those of ones 3PLs.

Shippers

3PLs

Slow connection for ecommerce sites (56 days), ERP (185 days), implementation costs >15,000€.

Manual management is a source of errors, operational inefficiencies and frustration.

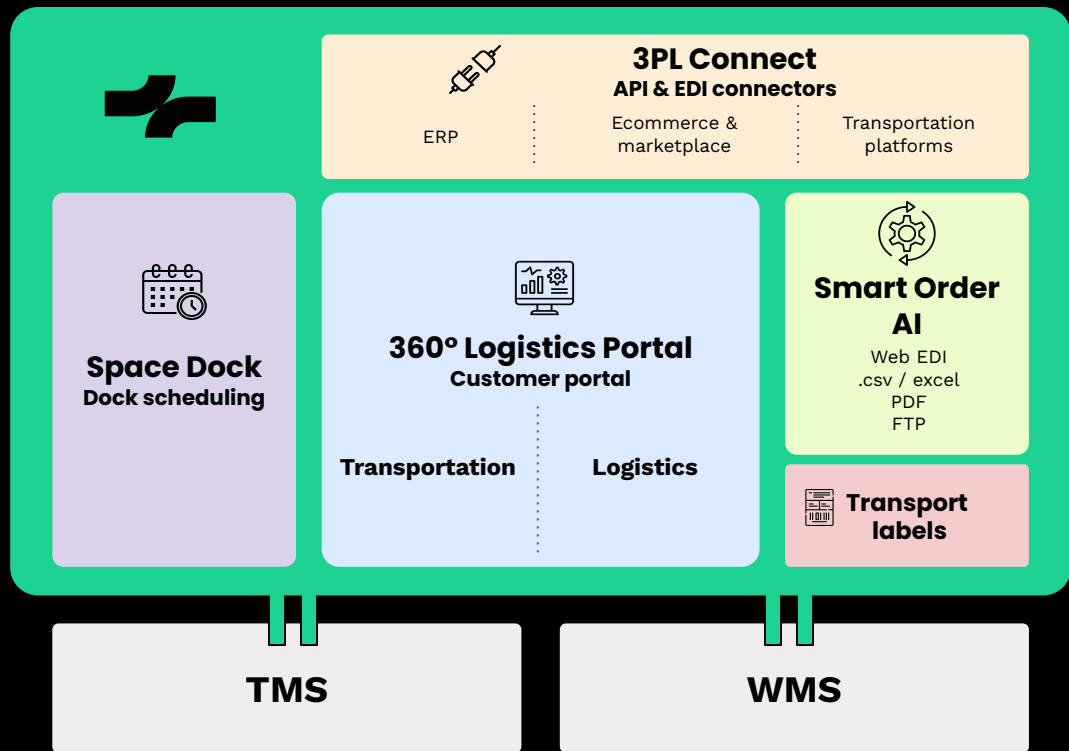

Difficulty to provide KPIs to your customers.

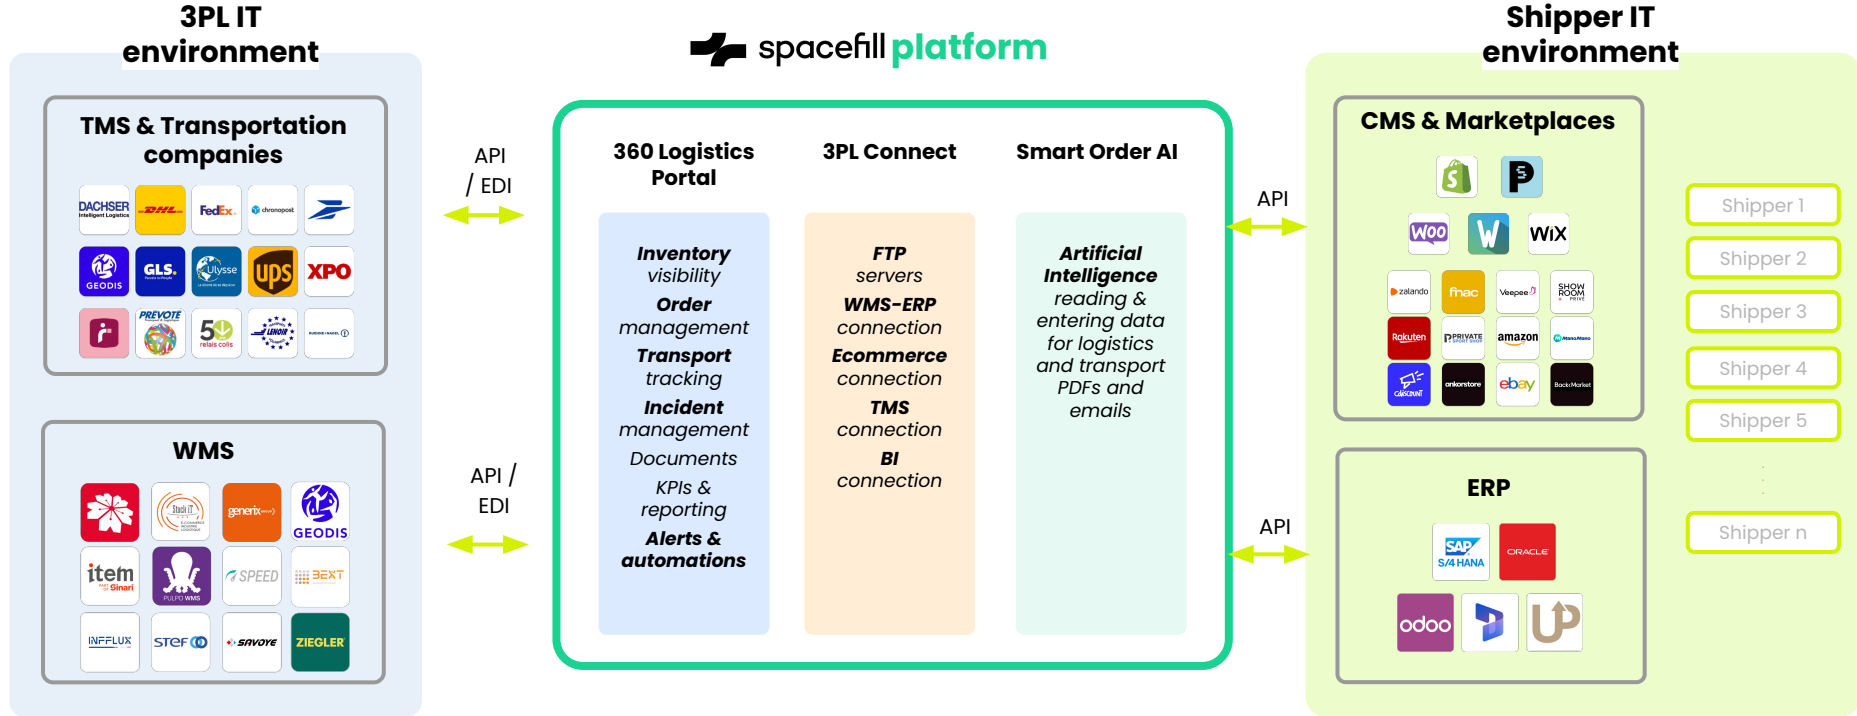

No data reconciled between WMS and TMS.

Everyone wastes time with artisanal or overly complex solutions.

The all-in-one
customer
experience
platform for 3PLs,
connected to your
business tools.

The ultimate software brick for modern 3PLs.

SpaceDock : Streamline transport appointment scheduling with customers and partners.

The screenshot displays the SpaceDock interface. On the left is a dark sidebar with the 'spacefill' logo and a user profile for 'Sylvie Gardin'. The main area is a calendar titled 'Rendez-vous' with columns for Dock A through Dock E and a time axis from 6:00 to 12:00. Various colored blocks represent appointments, such as 'Multi-ingredients Dachser' in red, 'OTWL DDP' in green, and 'Archebald (765758)' in blue. A modal window titled 'Prise de rendez-vous transporteur' is open, showing details for 'XPO' (email: ep-editions-fr@xpo.com) and a section for 'Instructions' with a comment field and dropdown menus for 'Prise en charge' and 'Livraison'. Another modal window titled 'Créneaux disponibles dans l'entrepôt' is also visible, showing a calendar for '15 Juin' with a table of available time slots.

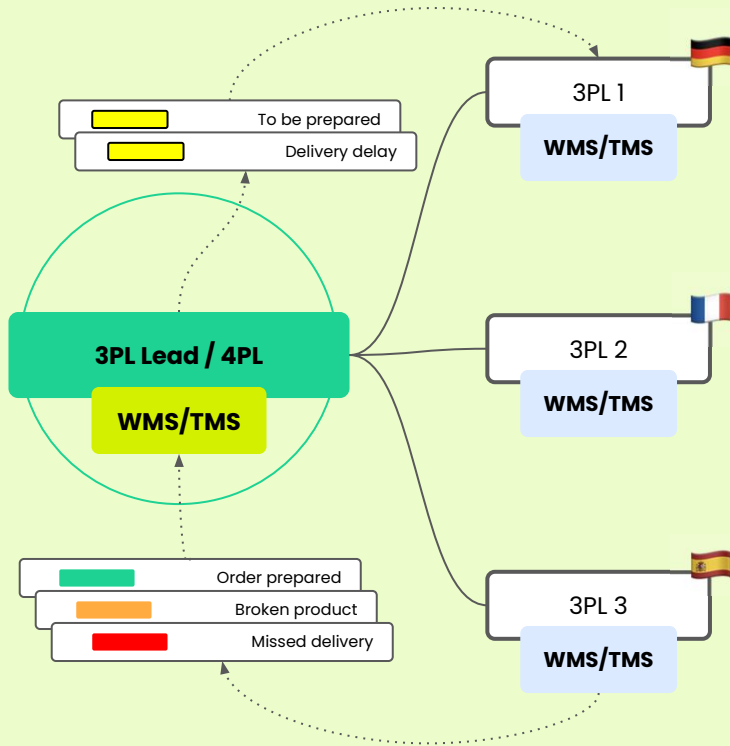

Time Slot
09:00 - 09:30
11:00 - 11:30
11:30 - 12:00
14:30 - 15:00
15:30 - 16:00

Give your logistics teams clear **visibility** and full control over delivery slots through a **collaborative calendar** accessible to your customers and partners.

0 integration required — a true plug-and-play solution..

100% adoption and reliability in appointment scheduling.

4PL Control Tower : Connect your 3PL subcontractors, without IT complexity or loss of visibility.

Unify warehouse data, **even across external partners**.

Offer your clients a single, unified view **of all their inventory and orders**.

Monitor and **manage your subcontractors' performance** as if they were your own sites.
